

The Regional Transportation Advisory Council invites you to a

# Site Visit to Alewife Station

Learn about proposed station area improvements

Tuesday, October 20, 9:00 AM

The Regional Transportation Advisory Council will make a field trip to the MBTA's Alewife Station, where members will learn about **improvements recommended** for the station area in MPO studies. These improvements encompass the bicycle network, bus access, and the roadway network.

MPO, MAPC, City of Cambridge, and MBTA staff will be available to answer questions.

Attendees will **meet near the elevators on the concourse** of Alewife Station at 9:00 AM and proceed to the top of the station's parking deck to have a better view of the station area.

A portion of the trip will not be wheelchair accessible.

Please contact Mike Callahan (617-973-8853) with any questions.
