Long-Range Transportation Plan, Destination 2050 [Webpage](#)

Transit Transformation Work Scope [\(pdf\)](#) [\(html\)](#)

## Transit Transformation Funding Allocation

- \$2.5 million available for programming in FFY 2025
- \$6.5 million per year in FFYs 2026-28
- Similar to Community Connections program, funding is “reserved” for programming in future fiscal years

## Transit Modernization Program and Feedback

- Past Transit Modernization projects are larger than LRTP target
- Feedback received:
  - Administrative bandwidth for multiple small contracts
  - Lessons from Community Connections program
  - Balancing expansion with maintenance backlog

## Project Types Scoping

- Enhance amenities for transit customers;
- Improve accessibility;
- Expand station capacity, accessibility, and create multimodal connections;
- State of good repair improvements (tracks, signals, and power systems);
- Limited fleet modernization and conversion;
- Invest in climate resiliency, support electrification.
